1. The Ministry of Labor's task of procuring labor manpower for Wismut SDAG was fulfilled only 69.4% in the month of August 1954. The Bezirk Karl-Marx-Stadt showed the best results in the recruitment drive, while the Bezirke Gera, Suhl, Magdeburg, Potsdam, Frankfurt/Oder, and Dresden showed the poorest.
2. The reasons given by the Minister for Labor were: a general lack of manpower in industry and business; and an insufficient participation in the recruiting by the factory administrations (Betriebsleitungen).
3. Since there is no manpower available for assignment to Wismut from the very small manpower reserve, workers for Wismut must be recruited from other types of industries. In view of this, all Kreise Councils were to be informed of the requirements of the recruitment by the Department of Labor and Professional Training.
4. Since the factory functionaries did not always have a sufficient understanding of the recruitment, it was often necessary for discussions to take place between members of the Department of Labor and Professional Training and the Bezirk and Kreis Councils so that workers could either be recruited for Wismut or transferred there. Such a discussion was scheduled for 12 October 1954 in the Bezirke which had shown poor results in the recruitment drive.
